Before you hit the road,
remember a few
important things
to ensure a smooth trip.

Before the trip

You'll be ready in just a few minutes:

- Book your car for a long-enough period in order to avoid extra cost in case you take longer than expected. If you return the car earlier than planned, you can manually close your booking via our booking platform.
- Unlock your car with your **tim**-card or via the **tim**-app. For e-cars, unplug at the car first and then on the charging post before storing the cable in the trunk of the car.
- Check the car for damages with the help of the digital list of damages available for each booking. Information on new damages including pictures can be uploaded there as well.

Off you go – **tim** wishes you a good trip!
